KILLS GERMS OF CATARRH.

Hyomei Goes to the Root of the Disease and Makes Astonishing Cures.

Catarrh cannot be cured by the use of pills, liquid medicines and so-called system tonics. Under such treatment the germs of the disease will still live in the air passages and increase and multiply.

Hyomei is the only scientific and thorough way to cure catarrh. Killing the germs in the air passages, it enters the blood with the oxygen, destroys the microbes in the blood and effectually drives from the system all traces of catarrhal poison.

Thousands of testimonials have been given as to the astonishing cures made by this remedy.

Mrs. LeRendu, 76 Western Avenue Cleveland, Ohio, writes: "I believe Hyomei saved my life. I am better now than I have been in thirty years. Many doctors, both in England and France, treated me for catarrh, but I was not cured until I used Hyomei."

Probably the strongest evidence that can be offered as to the powers of Hyomei to cure catarrh is the fact that E. J. Jenkins will agree to refund the money if you say Hyomei has not cured you.

The complete Hyomei outfit costs but \$1.00, consisting of an inhaler, dropper and sufficient Hyomei to last several weeks. This will effect a cure in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use may be necessary, and then extra bottles of Hyomei can be obtained for 50c.

ALLEN ACADEMY GROWTH.

Six Thousand Dollars Will Be Expended to Accommodate 150 Students.

In pursuance of the plan for enlarging the accommodations of the Allen Academy, heretofore mentioned in detail in the Eagle, with a view to increasing the attendance to 150 students the coming year, the principals of the Academy have determined to expend \$6000 in new buildings and additions to present buildings.

To further the enterprise four members of the board of directors, Messrs. W. E. Saunders, G. S. Parker, L. L. McInnis and J. Allen Myers, were out yesterday securing agreements from citizens and business men to pay the interest on \$4000 for five years at 6 per cent, amounting to \$240.00 annually. The amount is small when apporportioned in the community and will enable the Academy management to go forward with the work without delay or hindrance, fostering an institution that is on its part contributing largely to the general prosperity of the town, which benefits will be multiplied with the growth of the school.

The committee met with a ready response in the movement and will secure the necessary amount, it is believed, without difficulty.

ANOTHER GOOD MAN.

Mr. J. B. Bagley, assistant professor in Textile Engineering, arrived at College last week and began work with Prof. J. S. Weir. Mr. Bagley comes to us highly recommended and well fitted for the work ahead of him. He is a graduate of the literary department of Wake Forest College, N. C., and after finishing his course he spent three years as an apprentice with the Roanoke Mills Co. of Roanoke Rapids, N. C., and then entered school and took a course in Textile Engineering. As soon as he left the textile school he began working for the Modena Cotton Mills of Gastonia, N. C., where he remained for six months. He then went back to work as overseer of weaving with the Roanoke Mills Co. where he remained for six months, leaving said position to come to the A. & M. College of Texas.

The Battalion extends a hearty welcome to Mr. Bagley and we hope he will be pleased with his work here.—The Battalion.

HE COULDN'T GET HIM TO PROPHECY ON THE WEATHER.

One day not long ago a sentinel was standing in front of Main building watching the clouds as they floated across the sky and the little birds as they flitted by. While the sentinel was thus engaged Captain Sargent came upon the scene. Captain Sargent asked the sentinel what he thought of the weather. The sentinel replied, "I don't think, Captain."

Captain:—"Well why don't you think? Don't you think it will rain?"

Sentinel:—"Captain, I don't want to predict about the weather. You've heard that story about the fellow predicting Texas weather have you not?"

Captain:—"No, what is it?"

Sentinel:—"Well Sir, Captain, it is this way: A man who makes a prediction on Texas weather, is either a new comer or a d—n fool. I know I am not a new comer, and do not want to be called the other." The sentinel's story saved his name from being on the delinquent list the next evening.—The Battalion.

BEAR AND A BOBCAT.

Chief Executive Succeeds In Bagging Couple of Varmints.

PRESIDENT PLEASED.

One of the First to Arise and Sit Down to Breakfast With an Appetite That a Dyspeptic Might Envy.

Glenwood Springs, Colo., April 18.—Information from President Roosevelt's camp says he has killed a bear and a bobcat. He is satisfied with his hunt for the biggest game the Rockies afford. If he gets one more bear or several he will be highly pleased, but to quote his own words: "I got what I was after. It was bully sport, and I hope it keeps up."

According to Courier Chapman, who has returned from the camp, the president is taking the true sportsman's delight in the rough life of the camp. He is one of the first to be stirring in the morning, and always the first to sit down to breakfast. The fare seems to suit him, although he has said several times he would be as well pleased if it were less pretentious. His idea of camp life is one kind of meat at each meal, and that fried vegetables of the canned variety, coffee made over an open fire and the smell of smoke in everything that is cooked. Thought of starting a game apparently has not occurred to the president.

SIX HUNDRED PRESENT.

Paper of Dr. Ambler Was the Leading Feature of Tuesday.

Atlanta, Ga., April 19.—Increased attendance and largely increased attendance marked the second day's proceedings of the American Anti-tuberculosis league here Tuesday. Late arrivals brought the attendance up to about 600 physicians, which includes a large number of women practitioners. The general subject considered at the only session of the convention of the convention was the treatment of tuberculosis in its various forms. The paper of the day which was accorded the closest attention was by Dr. C. P. Ambler of Asheville, N. C., on "The Physicians' Permanent Duty to the Patient and Family in Tuberculosis." At the conclusion of the paper the convention, by unanimous vote, authorized the publication of the paper as embodying the sense of the league on the subject. Dr. Ambler, in the course of an address, said:

"I wish to place myself on record as advocating that the best means of preventing consumption is to discover the tuberculosis disease in the patient before the stage of consumption has been reached. Consumption is persons dying with a tuberculosis disease. Tuberculosis is not the fatal disease that past generations have regarded it." The latter part of the day was devoted to a Georgia barbecue, which was attended by several hundred of the doctors.

PAUL JONES' BODY.

American Squadron Will Escort Hero's Remains From France.

Paris, April 19.—The state department has advised Ambassador Porter that an American squadron will be sent to take the body of Paul Jones to the United States, probably in June. It is expected that the French government will participate in an imposing funeral pageant when the body leaves Paris. Detailed plans have not yet been made, but it probably will occur before the French national holiday, July 14. Large forces of French soldiers and sailors will form the escort.

WANTED GOOD MEN.

Moore Admitted Giving a List of Eight Jurors to the Sheriff.

Austin, April 19.—The feature of Wednesday's trial of John H. Kirby and A. S. Vandervoort was the testimony offered by District Attorney Moore. He was recalled by the state and asked if he did not take a list of eight of the jurors in this trial and give the list to the sheriff from which to pick a jury. Moore admitted that he had, and when asked why he had done so he had declared that he wanted good men on the jury.

B. F. Bonner of Houston, general manager of the Kirby Lumber company, was placed on the stand and testified as to telegrams he had received from Kalamity Bonner and his replies. These telegrams informed B. F. Bonner that the grand jury was about to return indictments against Kirby for bribery, and Kalamity wanted to post Bonner in the matter.

John Bonner of Houston testified about Glover registering at a Houston hotel as C. H. Edwards of Kansas City, and about Kalamity Bonner introducing Glover to John Bonner as Edwards.

Henry G. King read to the jury some affidavits he had prepared to show that the Kirby Lumber company was not a trust.

Judge Samuel Streetman of Houston testified as to a conversation he had with McFall regarding the legal aspect of the anti-trust cases.

SHORTER LIVED.

Americans Do Not Live as Long as Germans, Says a Doctor.

Wiesbaden, April 19.—"Americans are shorter lived than Germans," was the conclusion reached by Dr. Laquer, in his paper on "Social Hygiene in the United States," submitted to the International Congress of Medicine, now in session here. "Although more temperate in the use of alcohol than Germans and working an average of 10 per cent shorter hours, Americans are," said Dr. Laquer, "exhausted in earlier life."

The doctor gave these figures for each 1000 people: The number of persons from forty to sixty years of age are, in Germany, 179; in America, 170; persons over sixty, in Germany, 78; America, 65. Dr. Laquer did not undertake to explain the facts. He simply gave them as the result of inquiries which he made during a visit to the United States in 1904.

ELECTRIC RAILWAY DISCUSSED

BY MR. F. N. LEVINS—A CANDID AND CONSERVATIVE TALK MAKES A GOOD IMPRESSION.

Mr. F. N. Levins addressed a citizens meeting yesterday afternoon, on the proposed electric railway and electric light plant.

The speaker was introduced by Mr. Robert Astin with pointed and forceful remarks pertaining to the subject of discussion, advocating the enterprise.

Mr. Levins then proceeded with a candid and business-like discussion of the enterprise, making it plain to his audience that he believed the proposition a feasible one, and that it promises great benefits to the town and the College, but indulging in no glowing word pictures. He pointed out some of the details that would have to be looked after, and referred to some matters as "difficulties," with no intention of discouraging the enterprise, but invoked thereby a good-natured rebuke by one of the ladies present, who asked him to show up the bright side a little stronger.

Mr. Levins took occasion to say that really, the people of Bryan could best afford to take up the enterprise themselves, build, own and operate the road, and take its profits, which he felt sure would be fair, and handsome, after a little time had elapsed.

The reporter believes that the public sentiment favorable to the enterprise was distinctly augmented by the plain business like talk that was made by Mr. Levins. He advised the people to proceed with the enterprise, along whatever line they found to be best, according to local conditions.

The talk made a good impression, and Mr. Levins evidently made a number of friends for the enterprise, as much by his candor and conservatism as otherwise.

PLEA MAY BE PLAN.

Idea of Sergius' Murderer Probable Position of Terrorists.

IS PRISONER OF WAR.

Imperial Guards Are Forbidden to Read Proclamations Scattered by Those Declared to Be Allies of Japan.

St. Petersburg, April 19.—The plea at Moscow of Kaleff, who was sentenced to death for the assassination of Grand Duke Sergius, that as a state of civil war exists in Russia and he is a prisoner of war and not an ordinary prisoner accused of crime, is considered here to indicate the position which the terrorists will assume hereafter. Naturally such a position is not acknowledged by the government, but the terrorists persist in the fiction. Kaleff, having been tried by a special committee of the senate, against which there is no appeal, will be hanged probably in a fortnight.

Circulation of revolutionary literature among troops throughout Russia has now spread to regiments of the imperial guards and a general order has been issued to the guards forbidding them to "read proclamations thrust into your hands in the streets or in your lodgings or to listen to these allies of Japan."

The ministry of finance has been assigned \$35,000,000, all for new railroad construction in 1905. It is understood the extension of the zemstvo system to Siberia will be followed by similar extension to Caucasus and Poland.

M. Stichinsky, formerly chief adjutant to the Russian interior department, and M. von Plehve, son of the late interior minister, have been made members of the Goremynkin commission, appointed to discuss questions relating to peasant tenure of lands.

OFFICIALS MET.

Confer at Amoy, Straits of Formosa, About Russian Squadron.

Amoy, April 19.—Provincial officials held a conference here with the object of determining on the course to be adopted in case the Russian squadron appears here. Officials are prepared to insist on the neutrality of this port being respected. It was suggested to the consular body that Chinese soldiers be permitted to land at the Island of Kulangsu, the foreign settlement of Amoy, to preserve order if the Russian squadron comes, but the consuls replied that this would not be necessary. Japanese ships which have been plying between Amoy and Island of Formosa were not making their usual trips.

The Japanese have a building here filled with stores, supposed to be medical supplies. The British steamer Heathbank, which has been at this port since Feb. 11, is said to have ammunition and light artillery under her supposed cargo of coal intended for the Russian squadron.

PROPOSES STAYING.

Cruisers Will in the Meantime Proceed to Overhaul Merchantmen.

London, April 19.—A dispatch to a news agency says: "Information received here is taken that the Russian squadron proposes staying at Kamranh Bay until May 7. Admiral Rojestvensky in the meanwhile is sending cruisers to overhaul merchantmen proceeding along the trade route to Straits of Formosa."

"Transports accompanying the Russian squadron are reported to be plying between Kamranh Bay and Saigon under the merchant flag of Russia."

JUNKS BLOWN UP.

Appearance of Mines South of Shanghai Causes Great Apprehension.

London, April 19.—A dispatch from Shanghai to the Morning Post says: "Two junks have been blown up by mines near Chusan. The appearance of mines south of Shanghai is causing great apprehension for the safety of European mail steamers."

Only Means.

Vlatka, Russia, April 19.—The local zemstvo has passed a resolution, which will be forwarded to the government, to the effect that the only means of quieting the people is to inaugurate immediately promised reforms, namely the convocation of a representative assembly and granting of liberty of press and of meetings, etc.

Kiji Launched.

Tokio, April 19.—The torpedo boat destroyer Kiji was launched at Kure. Her displacement exceeds 200 tons.

MARRIES RIDING MASTER.

A Niece of Andrew Carnegie Secretly Weds Some Months Ago.

New York, April 19.—It has become known that Andrew Carnegie's niece, Nancy, was secretly married about a year ago to a riding master named Heaver, whom she met at Newport. The story was confirmed by Mr. Carnegie.

"My niece was married to Mr. Heaver in New York about a year ago," he said. "Mr. Heaver was a riding teacher in the family. Our family has no objection to the match. Mr. Heaver is an honest, upright young man. I would rather Nancy had married a poor, honest man than a worthless duke. We want no rich men in our family."

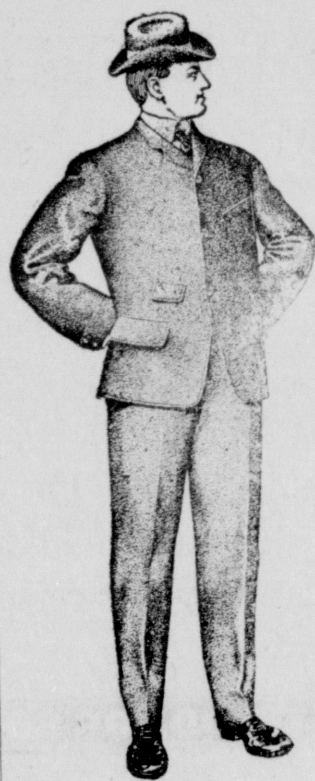

Her Father Present.

New York, April 19.—As on her previous trial, Miss Nan Patterson's father is with her.

SEVEN-STORY TEMPLE.

Masons of Dallas Will Erect Structure
of Stone, Steel and Brick.

Dallas, April 18.—Site for the new Masonic temple for Dallas has been obtained by the purchase of a lot 100x100 feet on the southwest corner of Main and Pearl streets at a cost of \$20,125. All of the Masonic bodies of the city will unite in the erection of a building at a cost of about \$50,000, or possibly a greater sum.

The intention is to have a steel, stone and brick structure of at least seven stories. The three stories, and possibly four, from the ground up will be used for business purposes and the obtaining of a tenant or tenants for a long lease will have something to do with the promptness of the building operations. Upper floors of the structure will be elaborately finished and used by the blue lodges, Tannehill and Dallas, the commandary, the Oak Cliff lodge and others, and will be the Masonic headquarters for Dallas. It is proposed to have an ornate and complete establishment.

NEGRO IDENTIFIED.

Alleged to Have Shot Professor Claude Hardy Near Pine Apple, Ala.

Waco, April 18.—Deputy Sheriff E. M. Melton of Wilcox county, Alabama, is here and positively identifies the negro, Will Ptom, who was arrested here suspected of being the negro who shot Professor Claude Hardy near Pine Apple, Ala., last month. Hardy is a wealthy plantation owner and with two or three other white men fought Ptom and his brother. Both negroes were shot, but managed to get away. About twenty-five shots were exchanged. Reward of \$500 was offered for Ptom. The fight created a sensation in that part of Alabama.

DIES SUDDENLY.

One of Bowie County's Richest Citizens Passes Away.

Texarkana, Tex., April 18.—Peter S. Ramseur, one of the oldest residents of Bowie county, died suddenly near his home at Hooks, twelve miles west of here. He was going after Doctor Rochelle to see Mrs. Ramseur, who was ill, and when in sight of the doctor's house was suddenly stricken with paralysis. He was lifted from his buggy and taken into the doctor's residence, where he died within an hour. Mr. Ramseur was a wealthy man. He leaves a widow, but no children.

Montgomery, Ala., April 18.—At the meeting of the Methodist home mission board Mrs. W. H. Johnson of Dallas, Tex., submitted a statement of the work of the rescue home and training school of which she is superintendent. The sessions of the conference will be given over to consideration and discussion of city mission work.

Dallas, April 18.—A negro woman of the name of Maggie Hunter became uncontrollable due to illness, got out of bed and jumped out of a window. She had been sick three years.

Waccite Wins.

Waco, April 18.—In the Houston Chronicle loving cup contest at the state shoot T. E. Hubby of this city won the cup by a score of 49 out of 50 targets. Atchison of Giddings was second, with 47 and I. A. Dryden of Waco third, with 46.

LOEB TO GO.

Will Visit the President So as to Take Up Some Matters.

Glenwood Springs, Colo., April 18.—Before President Roosevelt penetrated the wilds so far that communication with the outside world will be next to impossible Secretary Loeb, with the aid of the courier daily expressed from the camp, will get on the president's trail and visit him in the mountains. The visit will be for the purpose of taking up with the president a number of important matters that have come to the headquarters here since Saturday. There are a number of commissions to be signed as well as department business that has been forwarded. Wild stories of the hunt, most of them obviously faked, have reached here. Secretary Loeb does not credit them.
